Eddie Bamford was recommended by a friend of mine to do some internal work on the house we recently moved into. He was always prompt in returning phone calls and in time keeping when coming to advise on the work to be done.

I think his work was wonderful and it has been complimented by everyone who has since visited the house.

All aspects of the job were excellent from the ordering of the materials needed, the skip hire and debris clearance and the skilled workmanship of the actual building.

I would unreservedly recommend him to others wishing to have a calm and careful builder in the house!
